

Pongo (formely Boomer) Missing

In the early summer of 2000 we rescued this very sweet and gentle male Dalmatian from a lot where he was being used as a guard dog to a homeless man. Before he was taken away by the pound we took him into our

group. He tested positive for heartworm and we had him treated. He was adopted that August (2000) to a family in the Fresh Meadows area of Queens and was renamed Pongo.

We recently discovered that Pongo is no longer with them. If you know of someone that has helped or taken in a male Dalmatian within the past 1-2 years or possibly longer please contact us. We would like to find Pongo and make whoever has him aware of his past medical condition. Had his owners contacted us when he got away we could have tracked him down immediately.

If you have any information about Pongo (formely Boomer), please call **(718) 224-8629** or **(718) 820-9220**.
